# Energie-Reporter

First of all: Despite the travel restrictions due to the corona pandemic we still offer the possibility to participate in the Energie-Reporter project, hoping that stays abroad will soon be possible again.

However, please make sure to protect your well-being and health!

## Energie-Reporter? - What?

The Energy Reporters are students of all faculties who are studying abroad for at least two months or who are coming from abroad to spend their semester in Germany and who enjoy reporting on the topics of climate protection and the energy industry in the respective country via video and text contributions.

Further Information: [www.energie-klimaschutz.de/energie-reporter](http://www.energie-klimaschutz.de/energie-reporter)

## I want to join!

Energie-Reporter is an ongoing project of the foundation Stiftung Energie & Klimaschutz. Therefore, there is no admission deadline, you can apply at any time. All you have to do is send a mail to Stiftung Energie & Klimaschutz ([kontakt@energie-klimaschutz.de](mailto:kontakt@energie-klimaschutz.de)) in which you tell us via video or text about your stay abroad, the topics you are studying or working on and which energy and climate issues you would like to report on.

Please also send us your information (mail and mobile number) so that we can get back to you for further questions.

## At what point will I be admitted?

As soon as we receive your information and proposed topics we will confirm that we received your documents. We select energy reporters according to the criteria of originality, professionalism and media usability. You will be notified by us at the latest one week after sending in your application.

# Energie-Reporter

## Benefits

**Reputation:** naturally, you will receive a written confirmation of participation which will look good on your curriculum vitae.

**Finance:** In return for your work as an energy reporter, you will be awarded a pocket money of 1.000 EUR. The first half will be given to you after you have sent in your first three submissions. The second half will be transferred to your bank account when you sent the second three submissions.

## Conditions of participation

By participating in the Energy Reporters, you agree to the editing and publication of your submitted materials. Your application and all subsequently submitted contributions may only contain sources and material (pictures, videos, graphics, texts, music) which the Stiftung Energie & Klimaschutz can share via media free of charge and free of third-party rights. You are responsible for a correct citation, quoting of references and licenses. Furthermore, you absolve the foundation from any liability towards third parties.

**Networking:** As a participant of this project you gain access to an interesting network consisting of personalities from politics, business and society. You will be invited to exclusive events taking place in southern Germany. Furthermore, you get the chance to publish as a guest author on our online platform – next to renowned personalities like ministers, federation chairmen and CEOs.

## What do I have to do as a participant of the project Energie-Reporter?

In total you will produce six reports on topics like energy production, energy efficiency, renewable energies and climate protection. Videos should not exceed 3 minutes; text reports should not contain more than 250 to 300 words and be supplemented with visuals. At least four of your reports should be videos. The Stiftung Energie & Klimaschutz will edit your submissions (if possible, in cooperation with you) and publish them free of charge via our media. Of course, you are very welcome to share your videos and articles via your own network.
